

Inference Release Candidate 4 Now Available for Download

July 29, 2008

New features for Release Candidate 4:

- Inference Online: New Inference application that provides dynamic, updated Help and Support content, including:
 - Product Documentation
 - Training Documentation
 - Training Screencasts
 - Downloadable Samples
- Improved performance for generating Inference results documents
- Fixed the “Administrative Access Needed” issue when exporting Inference results documents (this issue affected Windows Vista users and a few XP users).
- Updated Configure Scripting Platform dialog for smoother workflow
